How to Play

Two ways to use this pack, depending on how much time (and how many scissors) you have.

1. **Worksheet way (no cutting):** print pages 3 to 5 and have your reader draw a line from each word to the friend who is doing it.
2. **Match game way (cutting required):** print and cut apart the word cards on pages 6 to 8 and the picture cards on pages 9 to 11. Mix them up, lay them face up, and find the pairs.
3. For younger kids, start with only 6 to 8 pairs at a time instead of all twenty-four.
4. Check your reader's work any time with the Answer Key on pages 14 to 18.

> **Why pictures help:** Seeing a friend show each word helps new readers connect the word to what it means, so it sticks. And Halloween words are extra fun to learn this time of year!
