before you print

How to Play

Two ways to use this pack, depending on how much time (and how many scissors) you have.

1. **Worksheet way (no cutting):** print pages 3 to 6 and have your reader draw a line from each sight word to the friend who is doing it.
2. **Match game way (cutting required):** print and cut apart the word cards on pages 7 to 10 and the picture cards on pages 11 to 14. Mix them up, lay them face up, and find the pairs.
3. For younger kids, start with only 6 to 8 pairs at a time instead of all thirty-two.
4. Check your reader's work any time with the Answer Key on pages 17 to 22.

> **What is a sight word?** Sight words are common words that show up so often in early reading that kids learn to recognize them by sight, instead of sounding them out letter by letter. Matching a word to a picture of a friend actually doing it helps the word and its meaning stick together in memory.

match worksheet

Match the Word (Part 1 of 4)

Draw a line from each sight word to the friend who is doing it.

COME

for the grown-ups

Answer Key: Match the Word (3 of 4)

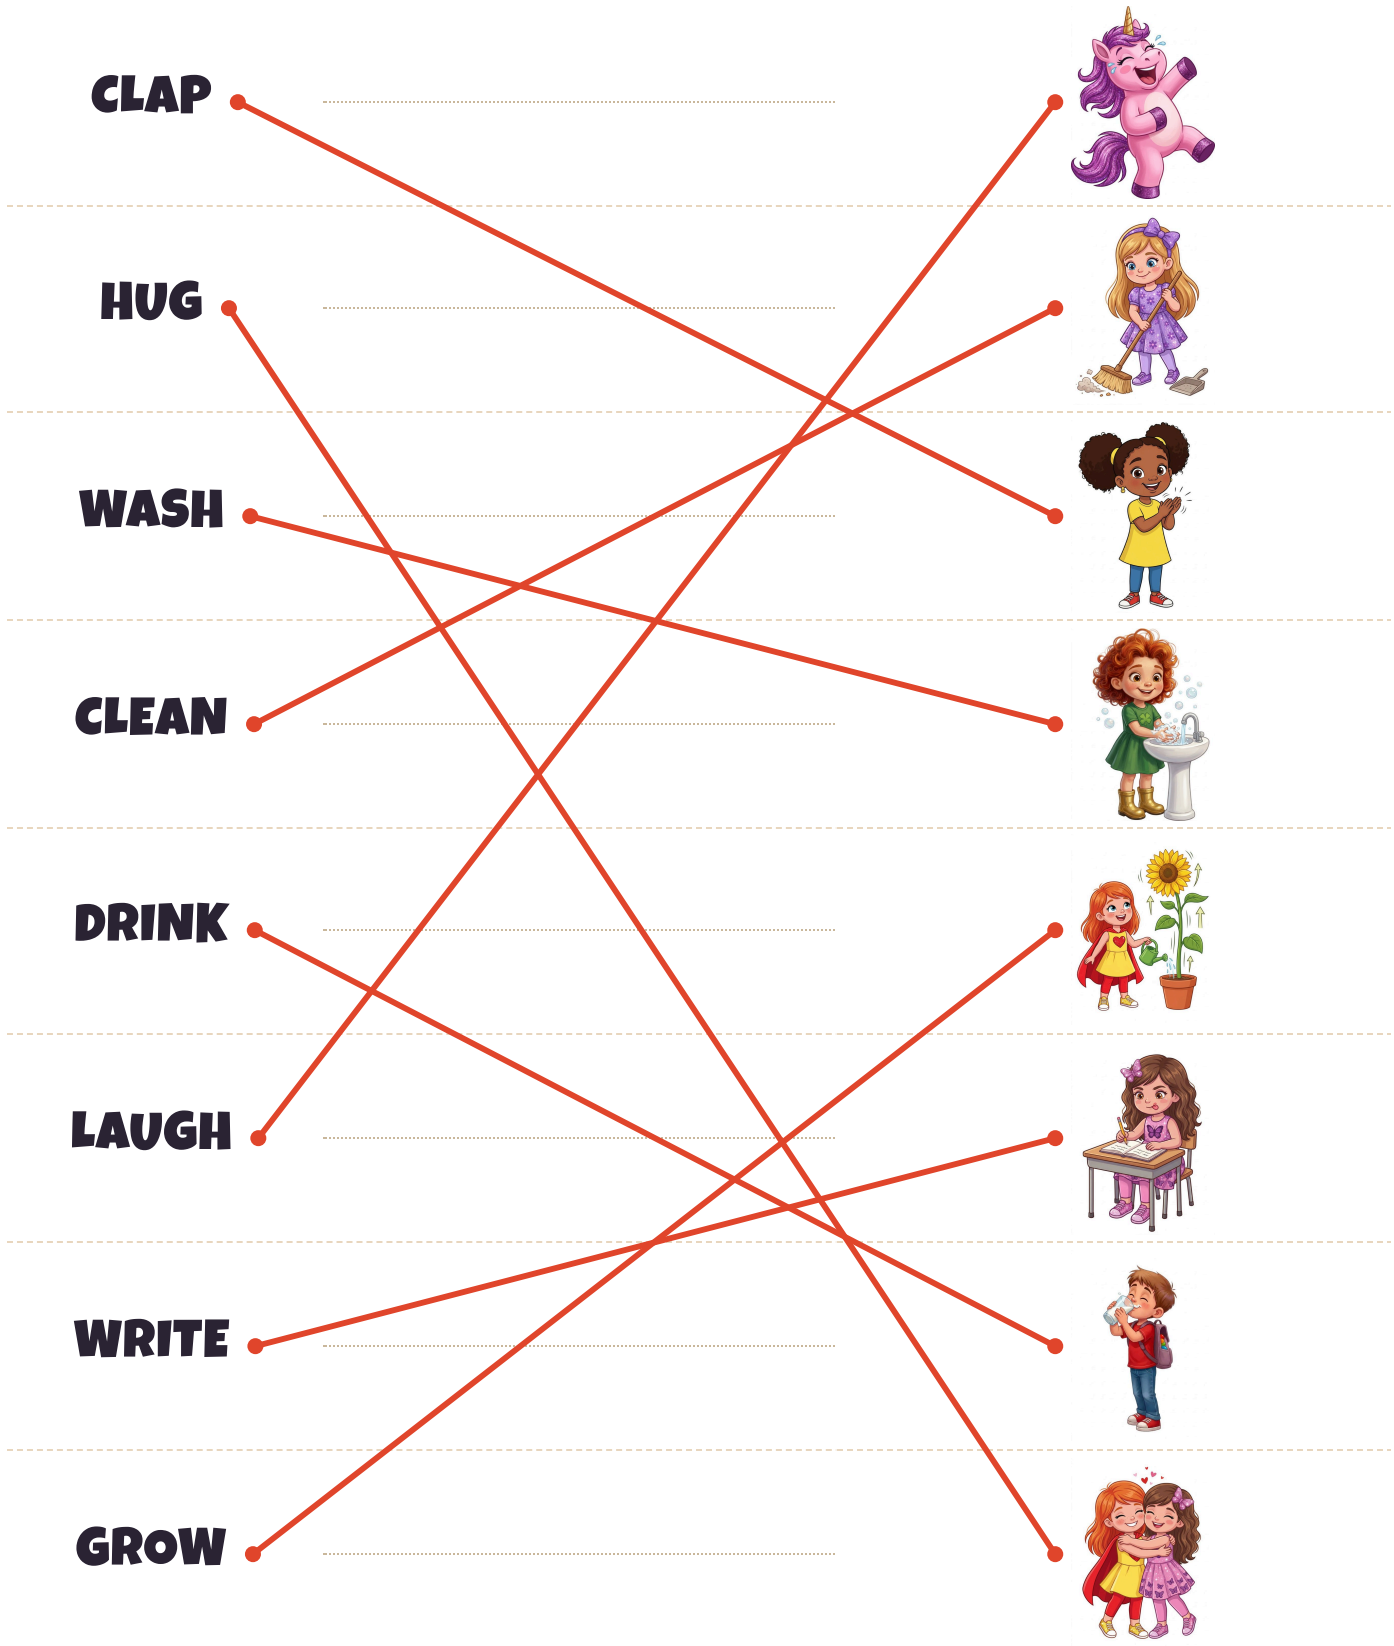

The red lines show the right picture for every word on page 5.

for the grown-ups

Answer Key: Match the Word (4 of 4)

The red lines show the right picture for every word on page 6.

this certifies that

learned all thirty-two Lulu Lilly sight words

From run and jump all the way to write and grow, with a whole lot of looking, helping and smiling in between. That is some seriously good reading.
